- We participate in the no-offer deadline as proposed by eusellowships leadership.
- Interviews may continue after the no-offer deadline based on availability.

Director, Emergency Medicine Ultrasound
Anthony Dean, M.D. was born and raised in England and has a fantastic accent. He has been a leader in clinician performed ultrasound since its inception. He has over 200 publications, leadership roles in multiple national and international organizations, and requires that all fellows learn how to surf.
Contact: anthony.dean@uphs.upenn.edu

Associate Director, Emergency Medicine Ultrasound
Nova Panebianco M.D., M.P.H. was fellowship trained by Dr. Dean in 2007. Her primary research focus is procedural ultrasound, as she just received an EMF grant to advance this research. She is the current SAEM Academy of Emergency Ultrasound President. She doesn’t know how to surf, but her brother is a professional windsurfer.
