Disclosure of Relevant Financial Relationships

It is the policy of The Children’s Hospital of Philadelphia (CHOP), Continuing Medical Education Department (CME) to insure balance, independence, objectivity, and scientific rigor in all its individually sponsored or jointly sponsored educational programs. As an accredited CME sponsor, The Children’s Hospital of Philadelphia requires that its speakers comply with the ACCME Standards for Commercial Support of CME.

All faculty participating in CHOP sponsored programs are required to disclose to the program audience any real or apparent conflict(s) of interest that may have a direct bearing on the subject matter of the continuing educational program. This pertains to a relevant financial relationship that you or your spouse/partner may have had within the past 12 months with pharmaceutical companies, biomedical device manufacturers, or other corporations whose products or services are related to the subject matter of the presentation topic with the exemption of non-profit or government organizations and non-healthcare related companies. The intent of this policy is not to prevent a speaker with a potential conflict of interest from making a presentation. It is merely intended that any potential conflict should be identified and resolved openly so that the listeners may form their own judgments about the presentation with the full disclosure of the facts. It remains for the audience to determine whether the speaker’s outside interests may reflect a possible bias in either the exposition or the conclusions presented.

The ACCME Commercial Support Standard also requires that your presentation is free of commercial bias and that any information regarding commercial products/services be based on scientific methods generally accepted by the medical community. When discussing therapeutic options, it is our preference that you use only generic names. If it is necessary to use a trade name, then those of several companies must be used. Further, should your presentation include discussion of any unapproved/investigative use of a commercial product, you are required to disclose this to the participants.

Please CHECK/“X” one box below:

☐ Neither my spouse/partner nor I have any actual or potential conflict of interest in relation to this program. I agree to disclose to the audience any unlabeled or investigational use of a commercial product that I disclose.

☐ My spouse/partner or I have had a financial interest/arrangement or affiliation with one or more organizations that could be perceived as a real apparent conflict of interest in the context of the subject of this presentation.

The person planning this Activity must indicate here how the disclosure was shared with the audience.

☐ Disclosure was made by the moderator/speaker at the beginning of the presentation.

☐ Disclosure was posted at the registration sign-in desk.

☐ Disclosure was given to each participant in the registration materials.

Your cooperation in complying with these standards is appreciated greatly.
