GOOD SHEPHERD FACTS

Good Shepherd Rehabilitation Network, based in Allentown, Pennsylvania, is a nationally recognized rehabilitation leader, offering an unmatched continuum of care for people with physical and mental disabilities.

Good Shepherd's Mission:

**Motivated by the divine Good Shepherd
and the physical and cognitive rehabilitation needs of our communities,
our mission is to enhance lives, maximize function, inspire hope,
and promote dignity and well-being
with expertise and compassion.**

- Good Shepherd provides inpatient and outpatient care at 30 sites in 7 eastern Pennsylvania counties.
- Number of employees: 1,175
- Number of people who are treated by Good Shepherd annually: 35,500+
- Good Shepherd's specialized programs: stroke, brain injury, spinal cord injury, orthopedics, pediatrics, amputation and more
- Total number of Good Shepherd licensed beds: 273

Levels of rehabilitation care:

- 14 outpatient physical rehabilitation sites
- 2 inpatient physical rehabilitation hospitals: Good Shepherd Rehabilitation Hospital in Allentown (70 beds) and Good Shepherd Rehabilitation at Pocono Medical Center (12 beds)
- 2 management contracts to oversee inpatient physical rehabilitation units: Wayne Memorial Hospital in Honesdale (14 beds) and Easton Hospital in Easton (14 beds). Note: These beds are under the host institutions' licenses
- 1 long-term acute care hospital (32 beds)
- 2 long-term care homes for people with disabilities (159 residents)
- 1 independent living apartment building (18 units)
- Work Services division that provides employment training and job placement.

A Brief History:

Good Shepherd was founded in 1908 when The Rev. John and Estella Raker invited a disabled orphan named Viola Hunt into their Allentown, Pennsylvania, home. From the initial vision and bold steps of the Rakers, then fostered by their son, The Rev. Dr. Conrad W. Raker, Good Shepherd has advanced many new types of rehabilitation care in its almost 100-year history.

Assistive and Rehabilitation Technology Leader:

Good Shepherd Rehabilitation Network is a national leader in the use of assistive and rehabilitation technology to increase, maintain or improve the functional capability of people with disabilities or as part of a comprehensive therapy program. No other hospitals in the region have comparable technology capabilities or services.

Examples of assistive technology are:

- Adaptive wheelchairs and seating
- Environmental control systems
- Augmentative communication devices

Rehabilitation technologies utilized in the therapy process at Good Shepherd include:

- A hand neuromuscular stimulator
- Body-weight supported equipment
- Electrical stimulation for swallowing problems
- A balance measurement machine developed by NASA

Financial Facts:

- Under President & CEO Sally Gammon, Good Shepherd doubled in size since 1997, growing from a \$45 million to a \$94 million operation.
- While growing at this extraordinary rate, Good Shepherd has maintained its "A" bond rating.
- In June 2000, Good Shepherd initiated a \$40 million capital campaign that surpassed its goal 18 months ahead of schedule and recently concluded with a total of \$51 million.
- The funds from the capital campaign were used to transform the organization's Allentown campus and build the Good Shepherd Health & Technology Center, which opened in the summer of 2006 and houses outpatient rehabilitation services, a technology center and a lifestyle products store, called Reability. The store, the first of its kind in the nation, offers lifestyle products to maximize the function of persons with disabilities in a modern, customer-friendly environment.
- Good Shepherd has always provided substantial charitable care and community support. As a percentage of total revenue, charitable care was 5.1 percent in fiscal year 2006 (or \$4.78 million) and 5.7 percent in fiscal year 2005 (or \$5.1 million).
