DE L'UNIVERSITÉ D'OTTAWA

ENDORSED BY:

The Society
of Thoracic
Surgeons

FRIDAY-SATURDAY, SEPTEMBER 13-14, 2019

4TH NORTH AMERICAN Aortic Valve Repair Symposium

Course Overview and Target Audience

The purpose of this activity is to provide an in-depth analysis and technical understanding of bicuspid and 3-cusp aortic valve repair and valve sparing aortic root reconstructive procedures. In providing technical and conceptual pearls from the world's leading experts in aortic valve repair procedures, the symposium is especially designed for cardiovascular surgeons, cardiologists, cardiac anesthesiologists, surgical residents and cardiothoracic fellows interested in aortic valve repair and root reconstructive procedures.

Learning Objectives:

Upon completion of the activity, the participant should be able to:

- Evaluate the aortic root complex to plan for aortic valve repair
- Review techniques of bicuspid and tricuspid aortic valve repair
- Use echocardiography to plan for aortic valve repair
- Perform Echocardiographic and physiologic evaluation of aortic insufficiency after valve repair
- Identify techniques for performing valve-sparing root reimplantation
- Describe clinical and echocardiographic surveillance after aortic valve repair

For more information, contact:

Conference Coordinator | Office of Continuing Medical and Interprofessional Education,
150 Anatomy/Chemistry Building, 3620 Hamilton Walk, Philadelphia, PA 19104-6061
