Desktop Shortcut

1. Once the Junos Pulse is installed you will find it on the Modern UI (new desktop)

2. To place a shortcut in the task bar right click the Junos Pulse icon in the Modern UI and select pin to task bar.

3. From here, Double click the Junos Pulse icon to launch the Pulse client, and sign it with your UPHS network credentials.
Connection Instructions:

1. Double Click the Junos Pulse shortcut in the task bar and once the Pulse Client opens
2. Click Connect
3. Type in your UPHS User ID and Password and click **connect**

**Note**
Once you have verified this solution is working properly, it is recommended that you “Uninstall” previous versions of the Citrix Access Gateway (CAG) VPN client, or Nortel Contivity VPN client from your machine:

- Start -> Control Panel -> Add Remove Programs (or Programs and Features in Win 7) -> select the legacy VPN solution and click **uninstall**

**Disconnect instructions:**

To disconnect from your Juniper Pulse VPN session you must do the following:

1. Click the **disconnect button** within the Junos Pulse Client

   **Note: If you just click the X in the right corner your session will remain active**
2. Once you have disconnected from the VPN session you can close your Junos Pulse Client.

*If there are any issues with installation please contact the help desk at 215.662.7474 to open a ticket for support.
